

Mast Climber (MCWP) Information Sheet

Safway Services is a full-service scaffold and vertical access company. With the resources of approximately 85 branches throughout North America at your disposal, you'll have the ideal mast climber to efficiently elevate your personnel, materials and tools to any position for all building façade work.

As our valued customer, you'll receive complete turnkey service, engineering support, and safety and operations training. Our extensive, state-of-the-art fleet ensures that your ideal mast climber will be onsite when you need it.

Features & Benefits:

- Variety of platform configurations ensures the efficient transport of crews, materials and tools
- Wide range of lifting capacities up to 8,000 lbs.
- Maximum height of 550 ft.
- Ease of operation allows all personnel to safely use MCWP with minimum training
- Gas- and electric-powered units available
- Safety features provide a secure environment
- Trained crews ensure quick and safe installation to help create a fully operational jobsite
- Lifting speed of 39 ft. per minute ensures timely vertical access
- 2,500 lb. and 4,000 lb. cranes help move materials onto a platform
- Free standing up to 45 ft., which eliminates the need for ties to structure

Applications:

- Brick masonry
- Glazers/curtain walls
- Stucco
- Exterior Insulation Finishing System (EIFS)
- Concrete
- Metal framing

Compliance Code:

ANSI/SIA A92.9-1993

Since 1936, Safway® scaffold has been the industry standard. From Systems™ to Sectional, Tube & Clamp to SafMax®, Motorized access to QuikDeck™, Safway has a full line of products designed for any project.
