

Personnel Hoist (Rack & Pinion Construction Hoist) Information Sheet

Safway Services is a full-service scaffold and vertical access company. With the resources of approximately 85 branches throughout North America at your disposal, you'll receive complete turnkey service, engineering support, and safety and operations training. Our extensive, state-of-the-art fleet ensures the ideal construction hoist will be onsite when you need it.

Features & Benefits:

- Lifting speed of 175 ft. per minute ensures timely vertical access on any structure
- Single car efficiently moves 6,000 lbs. of material or 30 personnel
- Dual car capability on one fixed mast doubles the capacity and increases productivity
- Non-counterweighted design eliminates wire rope and catheads, increasing reliability and safety
- Cars are fully enclosed for user safety
- Advanced Variable Frequency (AVF) drive ensures smoother, quieter ride and accurate leveling
- Jobsite safety is enhanced through:
 - Electronic control and limit switches
 - Interlocking gates
 - Disc brakes and safety over-speed governor
- Complete "turnkey" service includes:
 - Installation
 - Supervision
 - Safety/operations training

Applications:

- Designed for high-rise structures
- General contractors providing vertical jobsite access to all trades and subcontractors

Compliance Code:

ANSI/ASSE A10.4-2007
OSHA 1926.552

SAFWAY®

Since 1936, Safway® scaffold has been the industry standard. From Systems™ to Sectional, Tube & Clamp to SafMax®, Motorized access to QuikDeck™, Safway has a full line of products designed for any project.
