- Approximately 4,000 employees
- Approximately 85 full-service Safway branches
- Largest engineering and design department in the industry
- Ongoing research and development to meet our customers' and industry's needs
- Only scaffold company with its own Scaffold Training University
- Numerous patents for innovative new products and designs
- Excellent safety record which demonstrates our commitment to safety and to our customers

Vast Project Experience

As a full-service scaffold company, Safway's industry expertise is part of the package. Our products and services are used for new construction and renovation projects, bridges, petrochemical plants, power plants, and shipyards.

Our involvement with a variety of jobsites means you'll have our access knowledge and experience on your side to help you determine what will work best for your project.

One-stop Supplier of Scaffold Services

We can manage your scaffold project from start to finish including delivery, erection, dismantling, on-site inventory management and many other specialized services.

The Industry's Largest In-house Staff of Engineers and Designers

Ongoing research and development coupled with numerous patents for innovative products and designs means we can solve your most complex scaffold problem.

Safway uses leading edge technology to create tomorrow's solutions. You'll receive high-tech, state-of-the-art designs, complete with 3-D modeling.

A Dedication To Safety

We are the only scaffold company with its own Scaffold Training University. With a wide variety of reputable OSHA-compliant training products and services, we have trained more than 50,000 valued customers, OSHA employees, and Safway employees.

The Right Scaffolding for the Job
